SPRAY RELEASE NOTICE

As a courtesy to our citizens, York County Mosquito Control will provide aduictiding (spray services) on private property for mosquitoes with the owner's permission as time and conditions permit.

This service is contingent on the level of mosquito annoyance and the amount of other county primary spraying requirements at any given time. Please be aware that based on the increased population, more areas now need to be sprayed. This often poses a problem in serving everyone's needs when requested.

If spraying is to be conducted on your property, the vehicle operator, due to time and equipment concerns, will not open gates, remove chains or depart from your private road while spraying.

In the event that a citizen desires a spray service for a special occasion (party/picnic) on a specific date, please notify Mosquito Control (890-3790) at least two weeks in advance so it can be scheduled. The special spray fee is \$40.00.

By signing the mosquito release form, the requesting citizen acknowledges that he or she is fully aware of the above information.
